The WWS world ranking list will be calculated using a two-year rolling points system. Please refer to the re-ranking document for confirmation of point drop-off dates.

At any event where players are seeded straight through to the knock-out stages and lose their opening match, they will receive half-ranking points for that event (rounded up to the nearest whole number)..

Any player who competes in the Challenge Cup, having reached the knockout stages of the main competition, will not receive any additional Challenge Cup ranking points from that event.

Group points set out above apply only where a player fails to qualify for the knock-out stages of an event. Should a player qualify for the knock-out stages from their group in 2<sup>nd</sup> position they will receive knock-out points only.

A player who enters an event and does not compete at least one match of the competition shall not receive ranking points.

At the end of the season players on equal ranking points will be ranked according to the most points earned in the last season. Should this not determine positions, points won in events working backwards from the 2020 World Women's Championship will be considered. Finally, if still equal, frames won in losing final match would be used from events working backwards from the 2020 World Women's Championship.
