The WWS world ranking list will be calculated using a two-year rolling points system. Please refer to the re-ranking document for confirmation of point drop-off dates.

A player who enters an event and does not compete at least one match of the competition shall not receive ranking points.

At the end of the season players on equal ranking points will be ranked according to the most points earned in the last season. Should this not determine positions, points won in events working backwards from the final event of the season will be considered. Finally, if still equal, frames won in losing final match would be used from events working backwards from the most recent event.
